

Craftsmanship

Perseverance

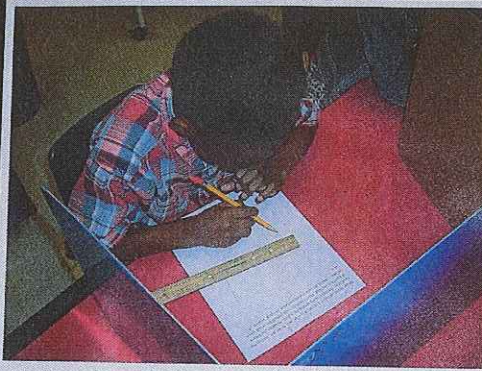

Collaboration

In my Special Education Resource Room, I take snapshots of students who demonstrate the Habits of Scholarship. The students love seeing how they have lifted up these Habits of Scholarship throughout the school year.

Craftsmanship

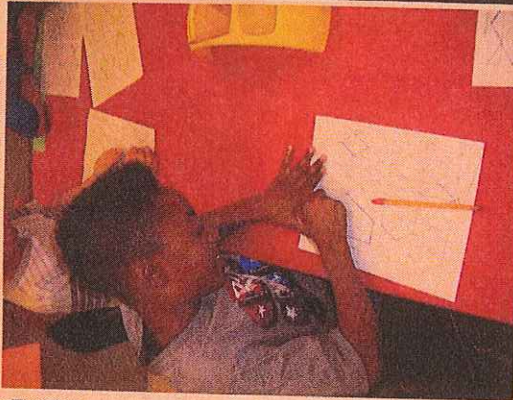

Tre'Vyon is really focusing on partitioning the square into three equal parts.

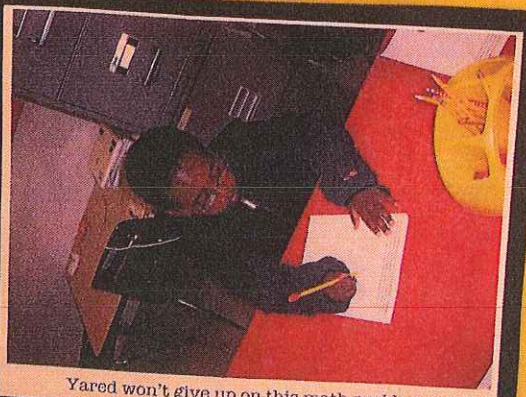

Hamadi carefully works to accurately partition the shapes into equal parts.

Here are two examples of craftsmanship:
Picture 1: This student is really focusing on partitioning the square into three equal parts.
Picture 2: This student carefully works to accurately partition the shapes into equal parts.

Perseverance

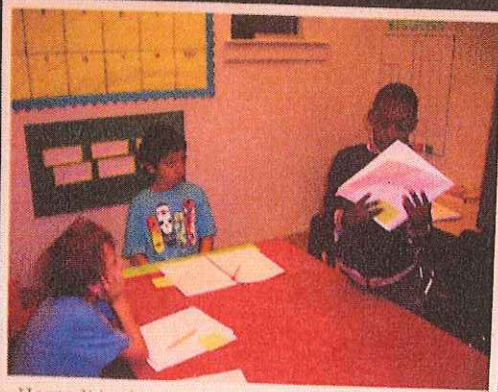

Tre'Vyon perseveres while drawing geometric shapes. He tries, and tries again.

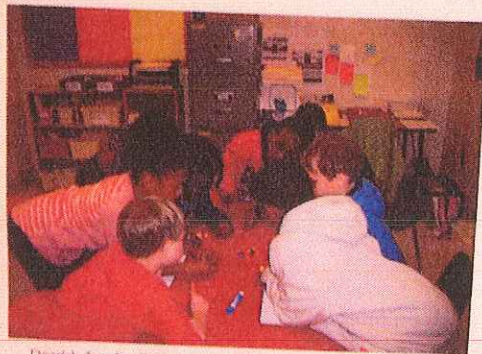

Yared won't give up on this math problem.

Here are two examples of perseverance:
Picture 1: This student perseveres while drawing geometric shapes. He tries, and tries again.
Picture 2: This student won't give up on this math problem.

Collaboration

Hamadi is sharing what he wrote today. Justin and Tyler give him feedback after listening.

David, Layla, Dominique, Yared, Tyler, and Hamadi are collaborating to figure out how to divide the objects into equal groups.

Here are two examples of collaboration:

Picture 1: This student is sharing what he wrote today. The other two students are giving him feedback after listening.

Picture 2: These students are collaborating to figure out how to divide objects into equal groups.
